INFO.  

SUPPLEMENT TO  
REPORT NO.

25X1X

1. The shipyards in Wismar will be enlarged so that they will be capable of constructing freighters of up to 3,000 tons displacement. For this purpose three sets of ways are being set up in addition to the construction and repair shops necessary. The yards will also be equipped with a floating dock.
2. The shipyards in Jarmundede will be enlarged so that they will be capable of constructing freighters of up to 3,000 tons displacement. Construction and repair shops will be provided in addition to a dry dock. Two additional sets of ways will be built.
3. The above reported construction of ways and docks will be so managed that it will be possible in the future to enlarge their capacity to any extent desired.
4. The present five-year plan calls for the construction in Wismar of:  

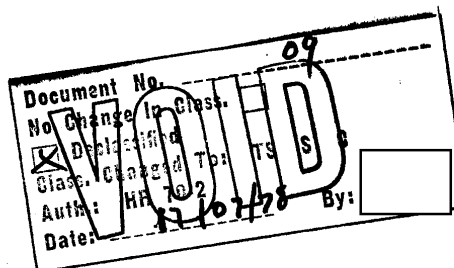

5 freighters of 3,000 tons displacement  
9 " " 1,000 " "  
20 fish cutters

The same plan calls for the following construction in the yards at Jarmundede:

2 freighters of 3,000 tons displacement  
2 " " 5,000 " "

By 1955, the Diesel-Motorenwerke at Rostock plans to have produced 63 Diesel ship motors of approximately 1,050 horsepower (German).
